PROFILE

Motivated B.Sc Computer Science student passionate about Data Analytics, AI, and Machine Learning. Skilled in Python, SQL, and data analysis techniques. Seeking opportunities to contribute to innovative projects while expanding technical expertise.

TECHNICAL SKILLS

Programming & Tools

• Python • SQL • Power BI • MS Excel

Libraries & Frameworks

• Pandas • NumPy • Scikit-Learn
• Streamlit • Matplotlib • Seaborn

AI & Machine Learning

• Random Forest • K-Means Clustering
• Predictive Analytics • AI Basics

Soft Skills

• Problem Solving • Teamwork
• Communication • Critical Thinking

CERTIFICATIONS

Credentials (2026):

- Gen AI Data Analytics — Tata Group
- Data Analytics Job Sim — Deloitte Australia
- Artificial Intelligence — Saylor University
- AI Skills Fest 2026 — Microsoft
- Use AI Responsibly — Google
- Introduction to AI — Google
- Discover the Art of Prompting — Google
- Cybersecurity Job Sim — Mastercard

Prior Certifications:

- Data Analytics Job Simulation
- Python Programming • AI Fundamentals

KEY COURSEWORK

- Artificial Intelligence Basics
- Data Structures & Algorithms
- Database Management Systems (DBMS)
- Object-Oriented Programming (OOPs)

LANGUAGES

- English (Professional)
- Telugu (Native)

CAREER OBJECTIVE

To secure a challenging position in Data Analytics or AI where I can apply analytical skills, solve real-world problems, and contribute to growth while continuously learning emerging technologies.

EDUCATION

Bachelor of Science (B.Sc) – Computer Science

Andhra University, Visakhapatnam

2024 – Present

- Focusing heavily on Data Science, Machine Learning integrations, and Advanced Computing.

PROJECTS

Rossmann Predictive Analytics Dashboard

- Built an end-to-end sales forecasting solution utilizing historical retail dataset, achieving a high model accuracy with an **R² Score of 0.9354**.
- Implemented robust data cleaning, feature engineering, and Random Forest Regression model.
- Deployed an interactive Streamlit web application showcasing comprehensive business insights, sales trends, and dynamic KPI tracking.

github.com/harshavardhanpalli/Rossmann-Predictive-Analytics

Customer Segmentation using Machine Learning

- Developed an unsupervised learning model using K-Means Clustering to group customers based on buying behavior and age distribution patterns.
- Conducted Exploratory Data Analysis (EDA) and data visualization using Matplotlib/Seaborn to uncover core spending trends.
- Generated data-driven marketing recommendations targeted for specific business groups.

github.com/harshavardhanpalli/Customer-Segmentation

Sales & Revenue Analysis Dashboard (Power BI)

- Designed a fully interactive Business Intelligence dashboard analyzing regional sales performance and product metrics from Jan to Oct 2026.
- Integrated advanced KPI cards, region-wise distribution charts, and interactive filtering to provide quick macro-level business revenue oversight.

Weather Prediction Analysis using ML

- Engineered a predictive model to analyze meteorological factors and forecast weather patterns using Python and custom preprocessing pipelines.

AI Resume Analyzer

- Created an automated system to extract skills, evaluate formatting, and compute direct ATS scores using intelligent parsing algorithms.

KEY STRENGTHS

- ✓ **Continuous Learner:** Proven record of 10+ professional certifications.
- ✓ **Analytical Thinking:** Strong data-driven problem solving capability.
- ✓ **Time Management:** Balancing degree curriculum with hands-on projects.
- ✓ **Collaboration:** Excellent team communication and leadership skills.
